The St. Joseph's (Mo.) Gazette gives a melancholy picture of the state of things on the plains. It is thought probable that nearly or quite all the emigrant trains for California and Oregon have been plundered, if not destroyed by the Indians. But one light mail is all that has been received from Utah in two months. The Indians are reported to be in great numbers all along the route, with the avowed intention of interrupting all outward bound trains, and report says they have attacked every train that has attempted to pass, and have murdered the men, plundered their gratified to visit, but it is impossible for them to do so. goods and carried off the women and children in considerable numbers; a few have been plundered only, and suffered to go and perish by starvation. The troops ordered to the plains had thus far been of little or no service to the emigrant trains.

MECHANICS' BANK OF MEMPHIS SUSPENDED. -The Memphis Whig of the 11th inst., contains the following:

MECHANICS' BANK SUSPENDED. - There was considerable excitement upon the street yesterday, relative to the suspension of the Mechanics' Bank of this city. The report is generally credited, yet we cannot say to what extent the suspension may affect the community, but it is generally thought that the amount of the bills in circulation hereabouts cannot be very large-probably a few thousand dollars. We went to the banking house for the purpose of obtaining more satisfactory information, but saw no one that could inform us as to the condition of its affairs or circulation. The greater portion of the bills we have seen in circulation are ongle, two's, three's and five's, and the greater portion of that which is out is probably in the the community on whom the loss will fall the heav- and places: iest. For some time past there has been considerable suspicion about its solvency, and very few, if any, of the large dealers and brokers would keep July 16th.

Any of the bills on hand, hence they have escaped James Brinkley's, District No. 25, Wednesday, pretty generally. We trust that this suspension July 18th. will not create any suspicious or doubts as regards the other banking institutions of the city.

Coal Burning Locomotives,

The public have been notified of several improvefurnace, for the purpose of adapting them to the more perfect combustion of bituminous coal, so as to fit them for use on passenger trains. No such coal known to us is fit for this use, in engines of the common form, constructed for the burning of wood, without some modification of the furnace and draught for obviating the nuisance of smoke, more effectually than any expiriment which we have seen in practical use. We called attention some wecks ago, to the experimental trial which was

made by a modification of the old engine Lowell, with a worn out boiler, in transporting a single senger car, with a number of gentlemen who had been invited to witness the experiment. what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of plicable are given on the box. Among the comula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly suc-

cessful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but y suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are easant to take, and being purely vegetable, no harm can arise from their use in any quantity.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its useness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority every other medicine of its kind is too appa rent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoanseness, &c.; and for CHILDREN it is the pleasantest and safest medicine

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bow-els. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrof-

SPECIAL NOTICES.

Immense Sale. It has long ceased to be fashionable to "puff" patent medcines, or do any thing to enhance their sale; not from any particular prejudice that has arisen in the public mind against them, but simply from the worthleseness of nearly all the "great remedies" crowded into the market. But occasionally a medicine that posseses real merit is brought into light-one that is really what it purports to be. Of this class, Sloan's preparations can be ranked with safety, for we have heard of no instance where his medicines have been tried, but that the fullest satisfaction has been given, and their immense sale will fully attest their popularity .-Freeport Journal, Ill.

LESS THAN COST. TO THE PUBLIC Of the United States.

A N advertisement of Mr. UDOLPHO WOLPE, lately published, as I suppose, intended for the protection of his Schiedam Schnapps against counterfeiters, has come under my observation, and being engaged in the manufacture of Schiedam Schnapps, were I to let it pass without notice through this medium, I might be considered among those he denominates "Pirates and Venders of Polson," but the immense patronage and success that has attended the sale of the article manufactured by me, and the opinion of sale of the article manufactured by me, and the opinion of competent judges as in its qualities as a beverage and its medicinal virtues, procludes the possibility of the idea that I am included among those he designs to impage. No doubt he feels aggrieved at the depreciation of the sale of his Schnapps, which is manifest to all, since mine has been brought into competition with his. Not only have I succeeded in competing with him in quality, but the constant and increasing demand for my article, has enabled me to furnish it at a less price than he can, or does—say \$2 in the doson.

And, furthermore, he will soon become satisfied that his can. And, furthermore, he will soon become satisfied that his cau-And, furthermore, he will soon become entisfied that his caution to the citizens of the "Southern and Western States"
will avail him nothing as far as I am concerned, for the
character of my Schiedam Schnapps is too well established
in those States, to be bijured by any such invidious publication. The motive of his advertisement is obvious to every
one, and feeling well satisfied that all such missiles thrown
at me by him will fall harmless at my feet, I will here, for
the satisfaction of the public, publish a copy of my Patent
Right, entered in the Southern District of New York, on
the 25th of December, 1856:

the 25th of December, 1854: (Copy of Patent Right.) SOUTHHEN DISTRICT OF NEW YORK, S.S. Be it remembered. That on the twenty-sighth day of December, Anno Domini, 1854, Barnard L. Simpson, of the said District, hath deposited in this office the title of a print or label, the title of which is in the words following, to wit: "Barnard L. Simpson's Aromatic Schiedam Jumper Schnapps, a superior Tonic, Anti-Dispeptic Invigorating Cordial," the right whereof he claims as author and proprietor, in conformity with an act of Congress, entitled "An Act in amend the several Act a respecting convergible." "An Act to amend the several Acts respecting copy rights."

GEO. W. MORTON,

Clork of the Southern District of New York.

And I take pleasure on this occasion to tender my sincere thanks to the public in general, and to my friends in particu-lar, for the kind liberality with which they have patronized me from my commencement of this enterprise; and I assure them that I shall continue to provide them always with a genuine and superior article of Schledom Schnopps. BARNARD L. SIMPSON.

AROMATIC SCHIEDAM JUNIPER SCHNAPPS. A Superior Tonic, anti-Dyspeptic Invigorating Cordial. I is a lamentable truth that, with few exceptions, every article of food we cat, every article of drink we imbibe, is more or less adulterated; and in nothing has adulteration been practiced to such an extent as in spiritous, vi-nous and fermented liquors. So much so, in fact, that it is

BARNARD L. SIMPSON'S

ness and fermented indoors. So much so, in fact, that it is impossible to procure pure liquors and wines unless obtained direct from a bone faile importer, of known reputation, and well established foreign connections.

It is owing to the corrosive, inflammatory and poisonous properties of the liquors sold generally in this country, that disgraceful, beastful infonication is so bequent, that the Legislatures of several of the States have taken the matter in hand, and prohibited the sale of spiritnous or fermented liquors as common beverages. quors as common beverages.

Were all liquors sold pure and unadulterated, we should need no Maine Law, and but few restrictions on their sale. Biotched faces, polaired limbs, swellen flesh, and that fearful disease, delirium framens, are produced, not by pure liquors, but by the infatoated habit of indulging in the corresive polsous sold under that designation.

SIMPSON'S AROMATIC SCHIEDAM JUNIPER SCHNAPPS Are manula. ured exclusively at Schiedam, in Holland, according to the directions of old established distilling houses in New York and New Orleans, expressly for medicinal purposes, and are entitled to high consideration. No other medicinal haverage, at present in use in the United States or in Europe, possesses such salutary and efficacious properties. In cases of Gout, Gravel, Obstructions of the Kidneya, Bladder and Urinary Organs, as well as in the peculiar dis-cases incidental to females, their effect is so prumpt and de-cided that they have excited the astanishment of medical

men, and elicited expressions of the most unbounded grali-tude from the patients to the proprietor.

Agents and private purchasers are cautiened to grard against the compounds of unaccupulous initiators. Suppson's Aromatic Juniper Schnapps will have the title of the Medicinal Cordial embossed on the sides of the bottle that contains it, and the signature of the proprietor on the The label on each bottle, which has been duly entered in the United States District Court, and consequently projected from initiation by the penalties of a law of Congress, is in the three principal Swing languages. English, French and German, and pamphints in those languages, descriptive of the merits of this health-invigorating beverage, can al-

ways be had at the Agenta.

J. WRIGHT & CO., Agents,
